PROFILE SUMMARY

As a self-taught Full Stack Developer with over two year freelancing experience. Specialized in creating visually stunning and accessible web applications. Committed to lifelong learning and embracing new challenges, seeking continuous growth and improvement. I am eager to utilize my knowledge and passion to contribute to the development of innovative and efficient software solutions

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, Bootstrap, MySql, Sqlite3

Libraries & Frameworks: Django, JQuery, Bootstrap

Web Development & CMS: Shopify, WordPress, SEO

Version Control & Deployment: Git, Cpanel, Vercel

Design & Prototyping: Photoshop

Concepts: Full Stack Development, Agile Methodologies

PROJECTS

divva.industrade.me – E-Commerce Website

Developed Industrade, a fully functional eCommerce platform using Shopify to provide a seamless online shopping experience.

- Custom Shopify Theme: A tailored design reflecting the brand identity for a unique and engaging look.
- Responsive Design: Optimized for both desktop and mobile, ensuring a smooth shopping experience.
- Integrated Payment Gateway: Secure and flexible payment options for a hassle-free checkout process.

My Blog – Personal Blog Web Application

Developed a personal blog web application using the Python Django framework, providing a platform for users to share their thoughts and experiences. The application features a responsive user interface that ensures an optimal experience across devices.

Developed using the Python Django framework to enable users to share thoughts and experiences.

- Django REST API integration for seamless front-end and back-end communication.
- Utilizes a MySQL database for efficient data management and storage.
- Implements user authentication and management for secure access and personalized content.
- Demonstrates proficiency in full-stack web development and API integration.

EXPERIENCE

WEB DEVELOPER | Divva group-Dubai

(15/04/24 - present)

- Developed Industrade, a fully functional E- Commerce platform to provide a seamless online shopping experience.
- Integrated Payment Gateway: Secure and flexible payment options for a hassle-free checkout process.

INTERNSHIP - Full Stack Python Django

One Team Solution EdTech Pvt. Ltd, Calicut

December 2022 – August 2023

During my internship at One Team Solution EdTech, I gained hands-on experience in full-stack development using the **Python Django** framework. I collaborated with a team of developers to design, build, and maintain scalable web applications tailored for the education sector. Key responsibilities included:

- **Back-End Development:** Implemented server-side logic and database interactions using Django, ensuring optimal performance and security.
- **Front-End Development:** Created responsive user interfaces using HTML, CSS, and JavaScript, enhancing user experience across various devices.
- **API Integration:** Developed and integrated RESTful APIs to facilitate seamless communication between the front end and back end.
- **Database Management:** Utilized MySQL for efficient data storage and retrieval, implementing models and queries to support application functionality.
- **Version Control:** Employed Git for version control, collaborating effectively with team members and managing code changes.
- **Testing and Debugging:** Conducted testing and debugging processes to ensure application reliability and performance.

This internship provided me with valuable insights into the software development lifecycle and reinforced my skills in both front-end and back-end development.

EDUCATION

BSc Computer Information Systems (Pursuing Online)

Saint Leo University, Florida, USA

Three Year Diploma In Electronics And Communication Engineering (2019-2022)

Govt. Polytechnic College, Kalamassery
